Synopsis

Shane will touch on the differences and similarities between contingency and continuity planning and how to balance between the two types. He will also share how the lessons learnt from high risk environments can be applied into the corporate world.

The Speaker for Contingency Planning vis-à-vis Continuity Planning – Lessons from Conflict Zones

Mr Shane Pritchard
Associate Director, Business Continuity Management
Barclays Capital Global Services

Shane is a graduate of the Royal Military College at Duntroon, Australia and served and as an Army Officer in Infantry and Special Forces units for 7 years. Shane then spent 4 years working for a Non-Government Organisation (NGO) and the UN clearing landmines and unexploded ordnance from post-conflict areas including Abkhazia (Georgia), Somalia, Kosovo, Cambodia and Nagorno-Karabakh (Azerbaijan). Shane led the first civilian security logistics operation into Iraq in 2003 days after the conclusion of the conventional war and was the team leader for operational contingency planning for the World Food Programme in Darfur, Sudan. Shane has corporate experience in Crisis and Security Management for the Commonwealth Bank of Australia and is now the Regional Head for Crisis Management for Barclays Capital in Singapore.

The Speaker for The Singapore Government TR19 Business Continuity Standard Implementations and Audit Criteria

Mr Wong Tew Kiat
Senior Manager
Singapore Computer Systems

Besides wearing the hat as exco member of SCS's Business Continuity Group (BCG), Wong Tew Kiat is also an iDA committee member, helping to develop industry standards for the SS507. He sits on the Spring Singapore panel of the BCM Auditors auditing organisations seeking BCM Certification. As Senior Manager for the Business Recovery Centre in Singapore Computer Systems Ltd (SCS), he manages and leads the DR & BCM Consultancy team, and is responsible for customer and technical services in dealing room recovery. Over the years, Tew Kiat has assisted customers to recover from "LIVE" disasters supporting them through the "SARS" precautionary activation period in 2003. Tew Kiat is a frequent speaker at BCP conferences in Singapore, China and Malaysia. In China, Tew Kiat was invited by the China BCM of the China Federation of IT Promotion (CFIP) as their Senior Consultant to develop DR/BC Standards and rolling DR/BC Awareness and Training Education.
